Kirloskar Centrifugal Compressors
Exceeding Your Expectations

Kirloskar Pneumatic Company Limited is a well known and trustworthy brand in India. For over 5 decades, the Kirloskar Group has developed high value machinery for industries worldwide. Our Plant at Hadapsar, Pune is a state of the art facility with complete technology for compressor manufacturing.

Our Pune facility has the best of everything under one roof. Our talented and efficient team at Research & Development offers best solutions to our customers. Flexibility in manufacturing approach enables us to respond rapidly to changing market demands and to bring new technologies & products quickly and cost effectively.

Our own foundry facilitates our compressor's needs with our highly equipped Metrology lab & stress relieving furnaces ensuring best results. We are committed to provide energy efficient, reliable and cost effective solutions.

Driven by the Kirloskar Group philosophy of "Enriching Lives", KPCL believes in service to customers & society through partnership, guided by values, innovation, technology and consistency in business processes.

Kirloskar Pneumatic Company Limited Head Office, Pune India

High performance Aero Design

- Backward lean design of impeller for best-in-class efficiency
- Aerodynamically designed diffusers to convert Kinetic energy to Pressure rise.
- Optimized volutes for effective pressure recovery.

Simple Installation

- Pre Packages with after coolers, controls, drive motor and lubrication system
- Single water and electrical connection.
- Compact design, requires minimum floor space, energy packed machine.

“KIRLOSKAR CENTRIFUGAL COMPRESSORS OFFERS YOU EVERYTHING”

Lowest Operation Cost

- True unloading Capability
- Excellent Part Load Efficiencies
- No wearing parts and virtually infinite life of bearing

Trouble Free Operation

- AGMA Rated gears for minimum 20 years of service life.
- PLC Based “Unix” interactive touch screen Control System

100% OIL FREE AIR

Web Enabled Access

- Remote Monitoring
- Data Trending

Easy Maintenance

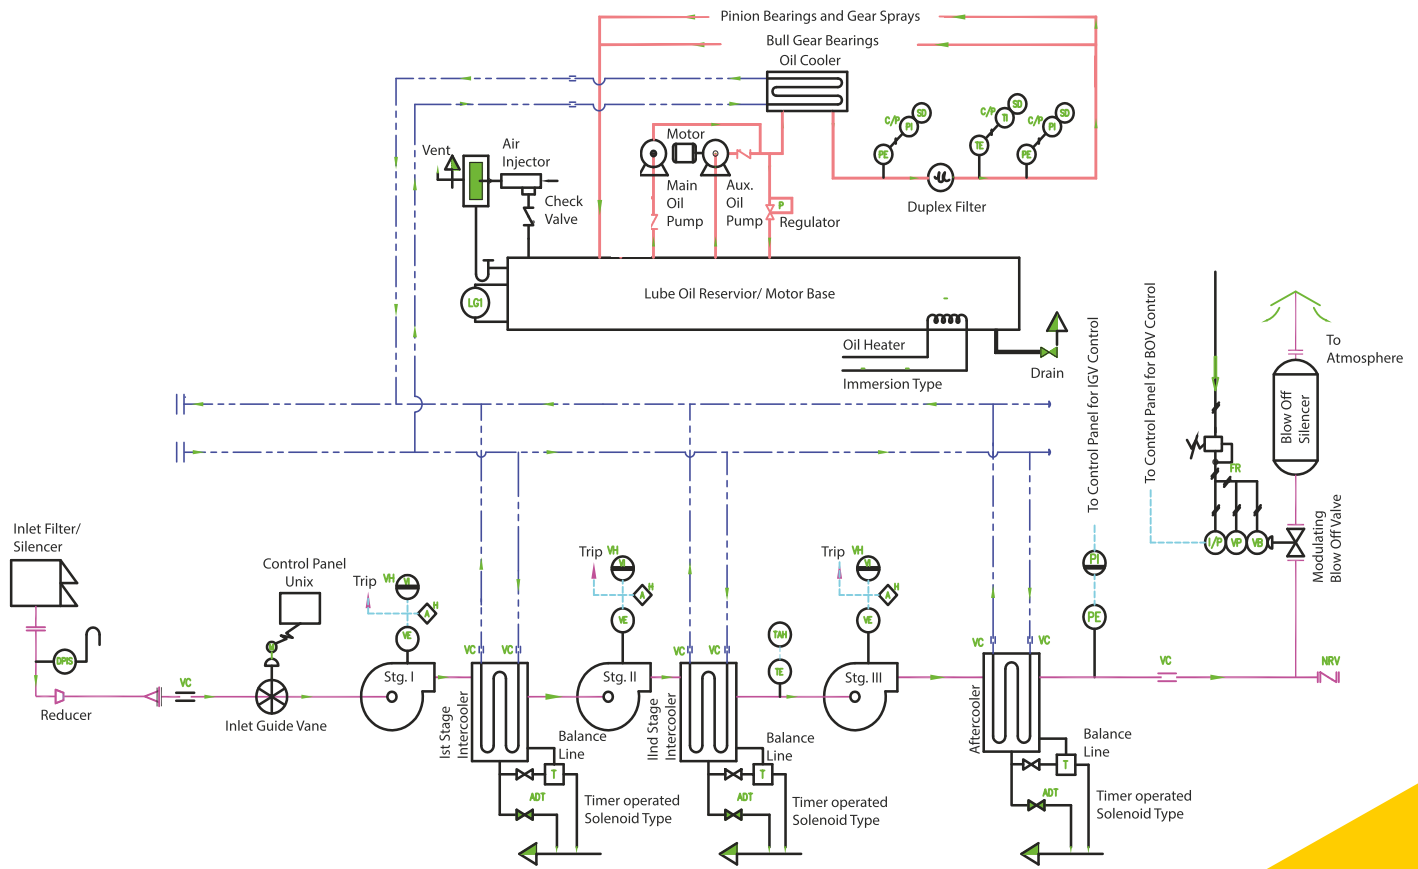

- Horizontally Split Gearbox - easy access to bearings, seals & gears.
- Drawer type intercoolers for easy inspection and cleaning.
- Pre-set Preventive maintenance alerts from controller

KIRLOSKAR CENTRIFUGAL COMPRESSORS

Model	Discharge Pressure #	Capacity		Motor Rating		Weight Without Drive Motor		Dimension L x W x H
	barg	cfm	m ³ /hr	kW	hp	kg	lb	mm
A- 3500	3.5 - 10.5	2400 - 4600	4100 - 7800	340-710	450 - 950	6700	14770	3535 x 2260 x 2120
A - 7000	3.5 - 10.5	4200 - 8050	7150 - 13600	635 - 1500	850 - 2000	8900	19600	4098 x 3194 x 2500

Upto 4.5 bar (g) KPCL offers two stage machines

Flow Diagram

KIRLOSKAR CENTRIFUGAL COMPRESSORS

Kirloskar Compressor promises Reliable Design and Operations.

Highly Efficient Impellers with splitter blades.

Optimized Volute

Highly Efficient Aerodynamically designed Diffusers

Bearing suitable for all operating load conditions.

Self Contained Lubrication Oil System.
Duplex Filters suitable for inline changeover.

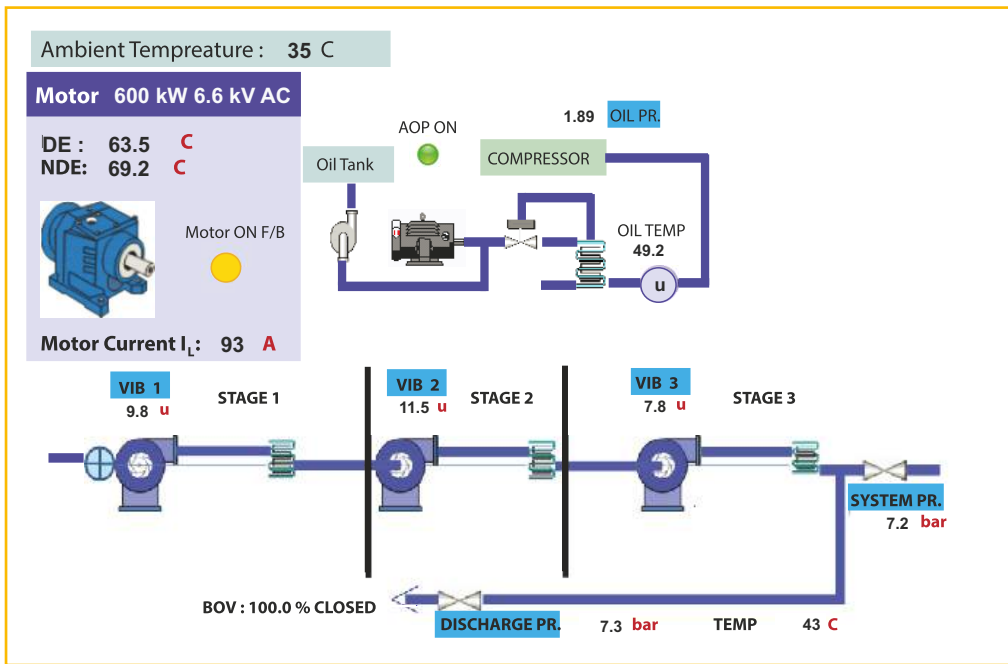

Accurate Capacity & Flow regulation through
Inlet Guide Vanes.

Compact Inter & After Cooler Design.
Interchangeable Tube Bundle Design.

3 Stage Air Filter

KIRLOSKAR COMPRESSORS CONTROL SYSTEM

“Kirloskar Centrifugal Compressors are equipped with an interactive “*Unix*” PLC based touch screen panel which enables the user to have up to date information of the machine running miles away and can control it from anywhere in the world. Intuitive and High Resolution colour display makes critical information quick and easy to access. Web enabled alerts facilitates the user to maintain optimal operation instantly.”

Easy Usability

- Multiple Ports (RS-232, RS-485 & Ethernet) for Connectivity.
- Panel with Touch Screen Display

Web Enabled Access

- Real Time Data Monitoring
- Access via PC or Smart-phone.
- Data Logging on controller memory that can be downloaded on USB Drive.

Optimized System Operation

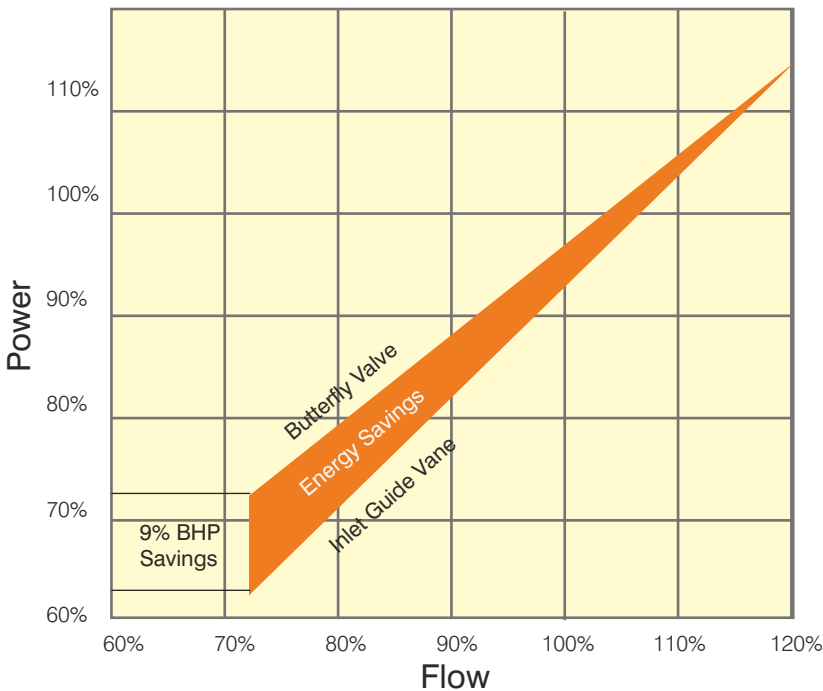

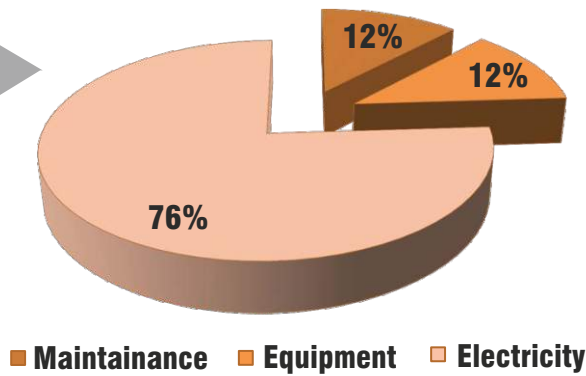

- Compressor Health Monitoring
- Surge Controlling Module
- Daily/ Weekly/ Monthly Shift Scheduling Module

KIRLOSKAR COMPRESSORS HELP YOU SAVE

Saving is Earning

At Kirloskar Pneumatic, we promise you assured savings by targeting lowest Compressors break down rate. Kirloskar Centrifugal Compressors are designed to work 24x7 delivering compressed air at optimum efficiency thereby, reducing operating cost substantially. Moreover lower energy consumption and maintenance cost facilitates increased savings.

Inlet Guide Vanes helps you to save up to 9% Energy over the life of compressor.

Inlet Guide Vanes.

IGVs used in these compressors, play very important role in efficiency of the compressor unit. IGVs are used to improve the overall efficiency of compressors. Its benefit is seen when compressor throttles.

Service and Support

Our Commitment ensures maximum uptime of the compressors and provides solutions to optimise them. Technology upgrades and energy audits are carried out by representatives to suggest the best energy conservation practices. We offer standard and customer specific service packages

Energy Audits

Certified KPCL representatives equipped with flowmeters, data loggers and other related audit instruments, undertake audit of compressed air plant and possibilities of energy conservation are suggested to customer.

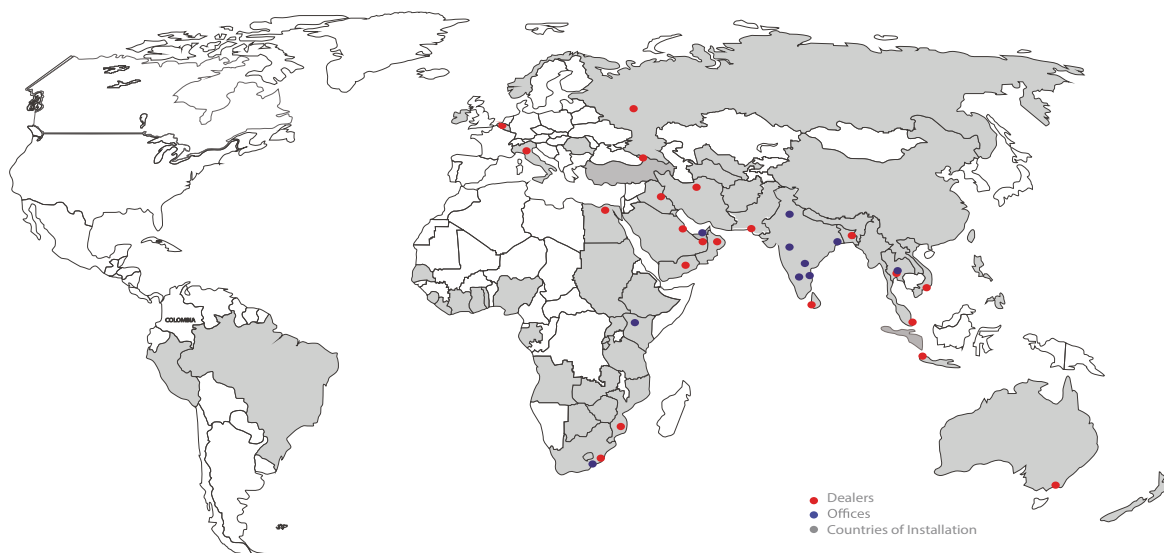

Training Programs

Classroom:

In house training centre caters to requirements of training to customer's user and maintenance staff. These programs give complete information about the principles of operations of the compressors and maintenance practices.

Onsite:

Training staff provides live demonstration in the factory premises and also provides training at customer works if desired by customer.

We Ensure Prompt After Service & Spares Support with over 60+ Dealers.
